SAVE ON SALT

People Helping People Improve Their Environment

## Get The Most Out Of Your Salt

SOS<sup>®</sup> - Salt and Sand Stockpile Treatment

### Tight Budget? Roads Icy and Dangerous? Supply Shortages?

All of this can come together to make winter even more stressful. SOS<sup>®</sup> can make your salt more effective and in turn makes you more productive.

#### Decreased Leaching

SOS<sup>®</sup> stays in the stockpile. Pre-treat stockpiles when convenient without worrying about product loss or messy clean up.

#### Keep Your Stockpile Flowing

Salt and sand piles can freeze up in the cold of winter, slowing down your operations. SOS<sup>®</sup> reduces caking in storage and keeps everything flowing smoothly when you need it most.

MeltDown Family of Products

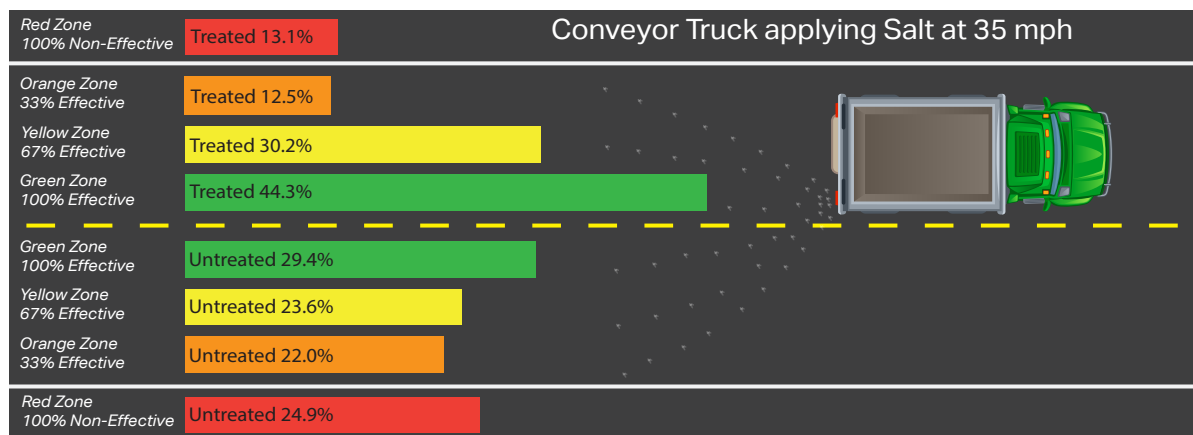

## Why use SOS<sup>®</sup> vs an organic-based salt treatment?

### SOS<sup>®</sup>

- Chemically Pure and Quality Controlled
- Won't Foul or Smell Over Time
- Low BOD/COD
- Mitigates Caking/Hardening During Long Term Storage
- Products Leaching Significantly Reduced
- Coloring Additives Available

### Organic Based

- Contains Inherent Chemical Impurities Which Promote Algae Growth
- Will Foul Smell Over Time
- High BOD/COD
- Prone to Caking/Hardening During Long Term Storage
- Product Leachings an Issue
- Natural Color Varies

Graph is based on the information in the 2012 Michigan Department of Transportation "Salt Bounce and Scatter Study". The report can be found in its entirety at [www.michigan.gov/documents/mdot/Final\\_ReportNov2012\\_404228\\_7.pdf](http://www.michigan.gov/documents/mdot/Final_ReportNov2012_404228_7.pdf). Michigan DOT does not recommend or endorse the SOS product just the use of treated salt.

## Why Choose SOS<sup>®</sup>?

Using Treated Salt rather than Untreated Salt can save you both time and money. By reducing bounce and scatter, SOS<sup>®</sup> gets more salt applied where intended and where it's the most effect. Achieve a higher level of service, safer road and reduce environmental impact by selecting SOS<sup>®</sup>.

SOS<sup>®</sup> is a PNS - Pacific Northwest Snowfighters approved product. Keep your stockpile flowing throughout the ups and downs of winter by reducing caking. The more effective first burn provided by SOS<sup>®</sup> kick starts the management of winter events and helps you stay ahead. Please contact your EnviroTech Salesperson to learn more about SOS<sup>®</sup>. Remember "Save on Salt".
